## Single Computerized Knitting Machine Series With Auto-stripper (Six-color)

# BIOTEX

### > Introduction

The computer control the six-color auto-stripper to knit the colored stripe fabric. It has the memory when cut-off. It is easy to change or adjust the colored stripe fabric width of internal storage through the machine control. Device with Manostat, it could make machine steady operation and equip the Auto Duster cleaner, which makes the machine cleaner and against cotton sticking. Also equipped with lycra yarn feeding device (elastance roller), it can produce high-class elastic colored stripe fabric. If terry conversion kit is equipped, it can produce colored stripe terry cloth or high-class stripe velvet cloth. Along with different gauge cylinder, it is easy and quick to change, which makes it a competitive product with complete functions.

MODEL	DIAMETER	GAUGE	FEEDER	MATERIAL
BS-1.4-MJFB	30"-38"	16G-28G	42F-52F	Chemical fiber, Cotton, Silk...
